10 Hex bolts
10 Wedge nuts

- Provides ability to push or pull vehicles with no power or stuck in park onto a tow truck or into a service bay
- Heavy duty 10mm steel center, universal 4/5, 5/6 & 5/8 bolt pattern, capable of handling high impact wrenches, preventing over-torquing
- Fastening system is 60° cone seat which enables most OEM bolts and nuts to fit
- No spacers or washers required.
- Works on all FWD, AWD and RWD vehicles
- Solid TPU tire, has superior traction on any surface
- Handles asphalt, uneven surfaces, downhill or uphill inclines effectively

- Lightweight thermoplastic material; easy to pick up
- Simple to use - Our hub easily bolts onto the vehicle hub in less than a minute
- Easily rolls forward or backwards on uneven surfaces, gravel, cracks, lips, lifts and outdoors
- Superior traction
- Spinning action makes the vehicle easy to push
- Works independently of vehicle's braking system
- Much easier to use than the 2-step hub & wheel solution. Hub and wheel solution is too wide to push the car onto a hydraulic lift
